SKILLS

JavaScript	HTML / CSS
React / Next.js / React Native	Git Control
RESTful APIs	Node.js / Express
Responsive Design	Unit Testing (Playwright)
WordPress	UI / UX Design
Adobe Creative Suite	Figma

Problem Solver	Creative
Collaborative	Organized
Dependable	Self-Motivated

CERTIFICATIONS

TypeScript Essential Training
April 2023, LinkedIn Learning

Learning Node.js
April 2023, LinkedIn Learning

EDUCATION

Digital Design and Development, Diploma, 2021-2023

- Learned the essentials about front-end development and UI/UX design concepts.
- Developed several responsive web apps using modern front-end frameworks with mobile-first approach.
- Provide constructive feedback to group mates to ensure consistency of code quality.
- Teach classmates how to debug coding problems while explaining the solution.
- Assessed UX/UI designs for technical feasibility.

EXPERIENCE

Front-End Developer Intern

Techies of Tomorrow, April 2023 - May 2023

- Collaborated with other interns to fix and build custom UI components based on designs provided in Figma.
- Tested existing interface of current project to report bugs and debugged front-end issues for a seamless user experience.
- Optimized front-end performance by implementing lazy loading for large components to ensure fast loading times.
- Participated in weekly stand-ups with senior developers and asked questions for clarification and sought suggestions for improving tasks.

PROJECTS

Lead Front-End Developer

Rooty, September 2022 - December 2022

- Developed a mobile-first full-stack web app using Next.js for low-income students to freelance their interdisciplinary skills to earn compensation for it.
- Converted Figma design mockup into functional responsive web app for a visually appealing user experience.
- Collaborated with designers and back-end teams in weekly basis to discuss requirements for weekly demonstrations while in a fast-paced, collaborative environment.

Full Stack Developer

CodeTipsTricks, February 2023 - March 2023

- Developed a mobile-first responsive full-stack web app using RESTful API and server-side rendering.
- Troubleshoot authentication for users to log in for seamless and uninterruptible user experience.
- Wrote simplified technical documentation for different audiences to understand what technologies were used and how it was done.
